

# Participants' Testimonials

This program rolled out beautifully, starting with prompting and then gradually scaling to other tools, and finally leaving us with a sense of responsibility to harness the power of AI imaginatively. It made me so much more aware that AI is here to stay and that we need to develop intelligent strategies of interacting with it, but not offload our cognition to it.

**Yacoob Moosa**

Port Shepstone School, South Africa.

The AI for Educators program was an enlightening and valuable experience. It clearly explained how AI can support pedagogical innovation, and I am grateful to the program lead for his guidance and insights. The learning has transformed my approach to teaching, and I believe AI will be a powerful tool for every educator who aims to inspire and educate effectively.

**Kamal Saeed**

TNG School, Qatar.

Great training sessions with international peers. The trainer is knowledgeable and well-read. I learnt a lot and able to open up to try new AI tools which I've never tried before.

Little Caliphs, Malaysia

# Participants' Testimonials

Relevant and informative program. We were given time to practice with different prompts and when we experienced difficulty we were provided with alternatives.

**Ruwaida Ismail**

Port Shepstone School, South Africa.

The AI for Educators program offered valuable tools and resources tailored for educators. The mentor was knowledgeable, patient, and encouraging. I believe this program will enhance my teaching practices.

**Uzma Asim**

Scholastic Islamia, Lahore, Pakistan.

The AI workshop offered was truly transformative. Each session was practical, engaging, and tailored to both educators and students, making complex concepts accessible and exciting. This workshop not only expanded my digital skillset but also inspired me to integrate AI into everyday learning and teaching experiences. I highly recommend this program to fellow educators and students who wish to stay ahead in the evolving world of education.

**Munira Shabbir Lokhandwala**

Ziauddin College School, Karachi, Pakistan.

# Participants' Testimonials

The AI for Educators program was a truly enriching experience. It broadened my understanding of AI through practical tools, while also encouraging critical and ethical thinking through meaningful discussions. The course has made me more confident and intentional in integrating AI into my teaching.

**Maryam Aslam**

Zindagi Trust, Karachi, Pakistan.

I have gained valuable experience through this program and truly appreciate the supportive and engaging learning environment. The course has opened a new window into the world of AI and its practical applications, enhancing my understanding and skills significantly. While the program is highly beneficial, making it more reasonably priced would help increase accessibility for the wider community.

**Nuzhat Fatima**

CAA School, Karachi, Pakistan.
